## SPECIAL ATTENTION.

Is directed to the Art Department, where ART NEEDLEWORK MAKING on the Sewing Machine is being demonstrated. This is something Entirely new and cannot fail to attract all ladies, whether or not they are especially interested in fancy-work. It is done by the use of SMITH'S UNIVERSAL EMBROIDERING and HEMSTITCHING ATTACHMENT, attachable to all two-thread machines. The special object in its use is speed, and the strange part of all is that while one can do at least twenty times as much as by hand, to every appearance, purpose and use, the results are just the same as handwork. It includes all fine Silk EMBROIDERIES, any kind of HEMSTITCHING, nearly every pattern of DRAWN WORK, fancy and domestic DARNING, Etc., and the greatest point is that any Lady can use it.
